## COACH'S COMMENTS:

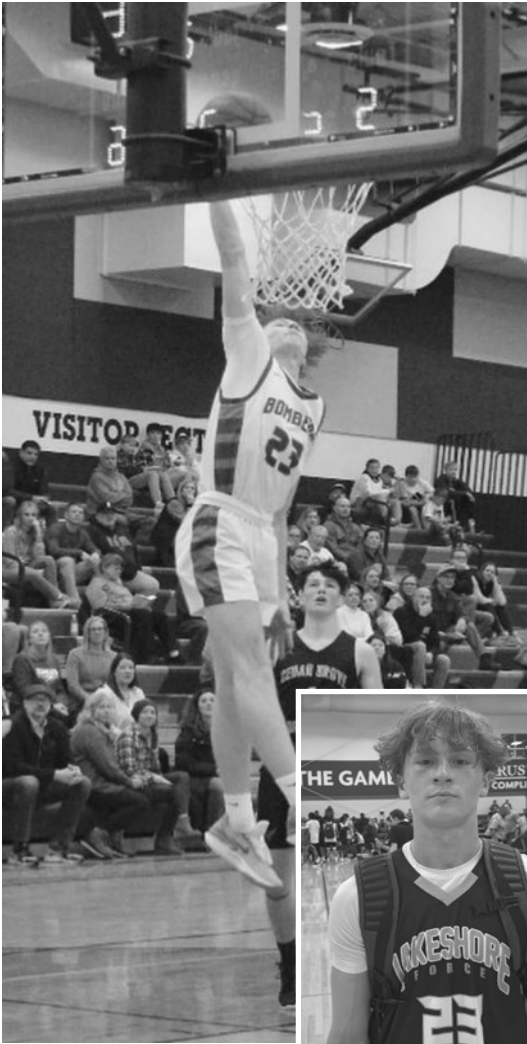

Logan made a major jump from his junior year to his senior year. You can see the amount of time he spent this off-season paying off for him on the court. Logan's length and athletic ability is major separator for him. He is able to beat his opponent down the floor for easy buckets and he is capable of coming out of nowhere to contest and block shots. Logan is multi-dimensional as he shot 50% from 3 on the year and he can play inside outside with taking guys off the bounce as well. Logan has a bright future at the next level and we're excited to watch him compete!

## COACH'S COMMENTS

*Max has become an elite player who has the ability to take over a game on both ends when he put his mind to it. He had the unique ability to run the point, shoot the 3, or certainly get to the basket with the quickest first step in the county. He is a super athletic player whose athletic ability and length have caused problems for teams throughout his career. To me, the best thing about coaching Max was watching his growth as a player, a person, and a teammate over this time with the Blue Bombers. I am confident that wherever he ends up as a player, he will now be bringing the total package to them.*

## COACH'S COMMENTS:

*Best Way to describe Cale, he is a Gamer. He loves the big moments and he isn't afraid to have the ball in his hands to make a big plays when a big play is needed. The kid never gets tired and had a ton of responsibility for our team the past three years on both sides of the ball. Cale's game has had to transform in his 3 years as a varsity starter. He accepted the challenge each year and has a very well rounded game because of it. Cale took a major leap in the last month of his senior season. You could see his leadership grow and there was a new found sense of urgency down the stretch for us as we made our playoff run. Cale leaves his mark at North becoming the 4th highest all time scorer in North history.*

## COACH'S COMMENTS:

Quiet Leader both on and off the floor. Always putting the team first, Brody is a gym rat who demonstrated what it took to become a very good player. Super coachable and understands when to turn it on and when he could simply facilitate getting others involved. Deadly from 3-point range and a fantastic ability to get to the basket. I enjoyed the ability to discuss things with him both on and off the court about what was working or not in different situations to help figure out how we could have the most success as a team.

## COACH'S COMMENTS:

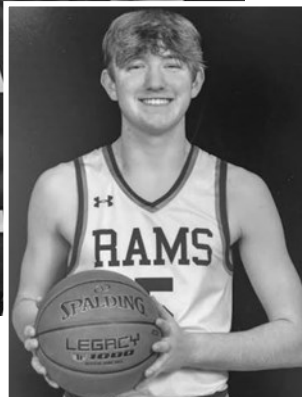

*Brock Zylstra was a captain for the Eagles and lead the team in scoring, rebounds, and blocks. Often the offense would be run through Brock and when he was scoring early, the game came a lot easier to the team. When the defense needed a steal or went to their 1-3-1, it was often Brock's athleticism and length that allowed them to get some disruptions on the defensive end. We can't wait to see what he can do at the next level.*

## COACH'S COMMENTS

*EJ Renzelmann is an incredible talent and is capable of doing just about anything on the court. He was very much a utility guy for us the past couple of years as we asked him to do a little bit of everything on the court. Whatever the challenge, EJ was always up for it! EJ's length and athletic ability separates him from most and allows him to do some pretty amazing things on the hardwood. EJ's biggest game for us was vs Sussex Hamilton at the WBY tourney at Concordia in which he came off the bench and recorded 5 deflections, 4 steals, and 3 assists to along with two second half buckets. This is just one example of EJ showing up in a big way when his team needed it the most. Always fun to watch EJ do his thing on the court and couldn't be more proud to have him repping Sheboygan North!*

## COACH'S COMMENTS

*Zane is one of the hardest working players I have ever coached. He is a gym rat whose willingness to get better in the weight room and spending time on his skills has allowed him to develop into a well rounded player who will benefit the Edgewood program immediately. He used to simply dominate teams in the paint, but over the past 2 years he has shown that he is capable of beating teams on the drive and from the 3-point line. The best thing about coaching Zane has always been his willingness to do whatever was necessary for the team to be at it's best. Never being overly concerned with personal accolades, his quiet strength and leadership has been a driving force for our program over the past 4 years.*
